EDUCATION

- 2018 | Master of Computer Applications (MCA) | Rourkela Institute of Management Studies | Odisha
- 2015 | Bachelor of Computer Applications (BCA) | Rourkela Institute of Management Studies | Odisha

IT SKILLS

- Automation:** Python, Selenium, TestNG, pytest, API Automation, Katalon, Playwright
- Testing:** Functional, Regression, Integration, System, End-to-End (E2E), Exploratory Testing - Web, Mobile (Android/iOS)
- AI & Audio Testing:** LLM Validation, ASR Testing, Audio Quality Analysis, Audacity
- API & Database:** REST APIs, Postman, JSON Validation, SQL Server
- DevOps & Tools:** Git, JIRA, TestRail, Proxyman, Charles Proxy, CI/CD (Jenkins/GitHub Actions)
- Performance Testing:** Latency Testing, Stress Testing (Prime95)
- Methodologies:** Agile/Scrum, STLC, Defect Lifecycle, Root Cause Analysis (RCA)

CORE COMPETENCIES

AWARDS

- Extra Mile Award, Sanas AI Pvt. Ltd.
- Spot Award, Sanas AI Pvt. Ltd.
- Q4 Culture Rockstar, Sanas AI Pvt. Ltd.

RAJAT SHARMA

Software Testing and Automation Engineering professional in IT and other industry, leveraging expertise in manual and automated testing, AI-driven validation, and scalable test frameworks to enhance software quality and accelerate deployment timelines.

PROFILE SUMMARY

- A detail-oriented QA Automation Engineer with over 7 years of experience in Software Testing, Test Automation, AI Validation, and Quality Engineering across web, desktop, and enterprise applications.
- Led end-to-end QA initiatives for AI-powered speech intelligence platforms, ensured high product quality through functional, automation, API, performance, and real-time communication testing.
- Specialized in designing scalable automation frameworks using Python and Selenium, accelerated release cycles and reduced regression testing effort.
- Validated Large Language Models (LLMs), Automatic Speech Recognition (ASR) systems, and AI-driven workflow to improve accuracy, reliability, and user experience.
- Delivered 4 consecutive major releases with zero production defects and recognized among the top 8% engineers for exceptional performance and quality delivery.
- Skilled in Functional, Regression, Integration, System, End-to-End, and Exploratory testing across Web and Mobile (Android/iOS) applications.
- Recognized with multiple performance awards for outstanding contributions, innovation, and commitment to continuous process improvement and engineering excellence.

WORK EXPERIENCE

Sanas AI Pvt. Ltd. | Bangalore | Since Apr'23

Growth Path:

QA Engineer II | Apr'23 – Sep'25

Senior SDET Engineer | Since Sep'25

Senior SDET Engineer

Key Result Areas

- Designing detailed test plans, test cases, and validation strategies based on product requirements and specifications.
- Formulating comprehensive test scenarios by analyzing use cases, conditions, and expected outcomes to ensure end-to-end test coverage.
- Conducting functional, regression, integration, performance, and security testing to validate application quality and stability.
- Detecting, documenting, and tracking software defects using Jira, ensuring effective defect lifecycle management.
- Validating bug fixes and newly implemented features through regression testing to maintain existing functionality.
- Generating test summary reports by tracking test case creation, execution status, and defect metrics for quality assessment.

Highlights

- Directed end-to-end QA strategy for AI-powered speech intelligence products across web and desktop platforms.
- Orchestrated Genesys dialer integration and validation with the Sanas platform, ensured seamless end-to-end call workflow.
- Executed LLM response validation and ASR testing across diverse real-world audio scenarios to ensure model accuracy.
- Engineered scalable UI and API automation frameworks using Python and Selenium, reduced manual regression efforts.
- Conducted performance and latency testing under high-stress conditions using Prime95 and custom-built scripts.
- Governed release validation cycles, consistently maintained zero production defects across major releases.
- Resolved critical production issues through L3 support and performed in-depth Root Cause Analysis (RCA) for effective resolution.
- Spearheaded on-site implementation and support initiatives across 6 client locations, including Bangalore, Hyderabad, Pune, Mumbai, Ahmedabad, and Kolkata.

QA Engineer II

- Performed functional, regression, integration, and exploratory testing across multiple product releases to ensure quality and stability.
- Developed and maintained comprehensive test suites, Build Verification Tests (BVTs), and regression test packs.
- Managed defect tracking and conducted Root Cause Analysis (RCA) using Jira and TestRail while collaborating closely with engineering teams in Agile sprints.
- Mentored junior QA engineers and enhanced testing processes, documentation practices, and overall team efficiency.

PERSONAL DETAILS

Address	Bangalore
Date of Birth	3 rd June 1994
Languages Known	English, Hindi & Odia

QA Engineer II | ZuciTech Software Solutions Pvt. Ltd. | Bangalore | Jan'22 – Apr'23

- Validated high-traffic consumer platforms, including Disney+, Marvel Unlimited, and ABC News, ensured seamless user experience and platform reliability.
- Executed mobile (iOS/Android) and web testing across smoke, regression, and exploratory test cycles to maintain product quality.
- Leveraged Charles Proxy for network traffic analysis, API validation & issue debugging.
- Delivered L3 production support by triaging critical issues, drove resolutions, and prepared detailed Root Cause Analysis (RCA) reports.

PREVIOUS EXPERIENCE

Software Engineer | LEANworks Technologies Pvt. Ltd. | Bangalore | Jan 2021 – Jan 2022
Software Test Engineer | CADEM Technologies Pvt. Ltd. | Bangalore | Jun 2019 – Jan 2021
